

GONDWANA UNIVERSITY, GADCHIROLI

DIRECTION NO 26 OF 2022

"Admissions and examinations leading to the award of one year diploma in bamboo entrepreneurship and design (Credit Based Semester Pattern) in the Faculty of Science and Technology, Direction, 2022"

Whereas, the territorial area within the jurisdiction of the Gondwana University is endowed with the rich resource of bamboo on which the tribal population is dependent for its livelihood. However in spite of the richness of the resource the socio-economic conditions of the tribal's in the area continues to be marginalized one and it is the duty of the university to generate and promotes sense of self respect and dignity amongst weaker sections of the society and also to generate, develop and disseminate knowledge, technology and skills amongst the stakeholders to uplift their standard of living

And

Whereas, it is also the duty of the university to foster high quality research of contemporary significance, is globally competitive and locally, regionally and nationally relevant;

And

Whereas, the Board of Deans in its meeting held of 17th February 2020 vide item no. 1 unanimously resolved to recommend to the academic councils of the university to start the one year diploma program in Bamboo Entrepreneurship and Design;

And

Being conscious about its responsibilities a meeting of various stakeholders was convened on 11th June 2020, under the chairmanship of the Vice Chancellor of the university, in which it was decided to bring out a one year diploma in Bamboo Entrepreneurship and Design from the academic session 2020-2021;

And

Whereas, the Vice Chancellor in exercise of his powers under section 12(7) of the Maharashtra Public University Act 2016 approved on behalf of the academic council and management council of the university starting of the one year diploma program in Bamboo Entrepreneurship and Design from the academic session 2020-2021

And

Whereas, in the meetings of the Board of Studies for the subject of "Bamboo Entrepreneurship and Design" held on 15thJuly 2022 and 8th August 2022 certain decisions regarding introduction of a one year diploma program on Bamboo Entrepreneurship and Design were taken. It was also decided in this meeting to start the program from academic session 2020-21

And

Whereas, Hon'ble Vice-chancellor on behalf of the Academic Council on has approved IDC-IIT Bombay developed model curriculum for One Year Under-Graduate Diploma in Bamboo Entrepreneurship Design, dated 04.04.2020 under the provision of section 12(7) of the Act, considering the exigency of the matter;

And

Whereas, under section 73 of the Act an Ordinance prescribing conditions for admission of students to any program of the university, fixation of the fees and charges for any program, condition governing the appointments and duties of examiners, conduct of examination, other tests and evaluations and the manner in which the candidate may be assessed or examined by the examiner and other related matters is required to be made by the university; however since ordinance making is time consuming process and since admissions of the students for the One Year diploma Program in Bamboo Entrepreneurship and Design is round the corner in the academic session 2022-23 it has necessitated issuance of a direction under section 12(8) of the M.P.U. Act 2016;

Now, therefore, I, Dr. Prashant Bokare, Vice Chancellor, and Gondwana University, in exercise of my powers under section 12(8) of the M.P.U. Act do hereby issue the following direction

- This Direction shall be called as Admissions and examinations leading to the award of one year diploma in Bamboo Entrepreneurship and Design (Credit Based Semester Pattern), in the Faculty of Science and Technology, Direction, 2022.
- 2. This direction shall come into force from the date of its issuance. However, this direction shall also govern the conduct of examinations and declaration of results of the all the students who have been admitted in this program in the academic session 2021-2022
- 3. In this directions unless the context requires otherwise following words and phrases shall have the meaning assigned here under:

- i) Course- Course means a subject (theory/ practical) prescribed for any semester of the program.
- ii) Credit Based Semester System (CBCS): Under the CBSS, the requirement for awarding a degree or diploma or certificate is prescribed in terms of number of credits to be completed by the students.
- iii) **Credit point** Credit point stands for performance of students in a particular course. It is a product of total credits of a course and the grade point secured by the student in the concerned course.
- iv) **Credit:** A unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours of practical work/field work per week, as far as possible.
- v) **Grade Point:** It is numerical weight allotted to each letter grade on a 10 point scale.
- vi) **Letter Grade:** It is an index of the performance of students in a said course. Grades are denoted by letters A+, A, B+,B, C+, C,D, F and Z.
- vii) **Program** Program means One Year Diploma in Bamboo Entrepreneurship and Design.
- viii) **Semester**: Each semester will consist of 15-18 weeks of academic work equivalent to 90 actual teaching days. The odd semester may be scheduled from July to December and even semester from January to June.
- ix) **University** University means Gondwana University.
- 4. Edibility for Admission: For admission to One Year Diploma in Bamboo Entrepreneurship and Design an aspiring student should have passed the 12th Standard examination conducted by the Maharashtra State Board of Education, Pune, CBSC and any other equivalent Board.
- 5. Admission Process: Subject to reservation policy of the state with respect to admission of students in educational institutions framed by the state government from time to time the admission to the programme under this direction shall be conducted by the Chief Program Officer and Head Science and Technology Resource Center of the university as per the process and the schedule to be notified by the said center.
- 6. Intake Capacity:- Maximum 30 number of the students shall be admitted in the program in each academic year
- 7. Fees: The admission and examination fees and the other fees for the programme shall be as notified by the university from time to time.

- 8. Program Structure: The one year diploma programme under this direction shall consist of two semesters called first and second semester respectively. Each semester shall have the courses the number of the courses, credit for each course, duration of examination, pattern of question papers, the maximum and minimum passing marks for each course shall be as detailed in **Annexure-A** to this direction and the contents of each course shall be as detailed in **Annexure-B** to this direction.
- 9. Medium of Instructions: The medium of instructions and examinations shall be Marathi

10. Rules of Allowed to Keep Term (ATKT)

- i) Students who has taken admission in the first semester of the program and having attended minimum 75% of the classes for each course prescribed for that semester shall be allowed to appear in the end semester examination to be conducted by the university.
- ii) A student, who has completed the term of the first semester and has appeared in the end semester examination of the first semester conducted by the university, shall be allowed to appear in the end semester examination of the second semester conducted by the university. However the result of the end semester examination of the second semester shall not be declared by the university unless and until the examinee has passed in the first semester examination

11. Rules of Examinations:-

i. Every course prescribed for the program under this direction shall carry the maximum marks consisting of internal assessment marks and university examination marks as prescribed in annexure-A to this direction. An examinee securing marks in any course out of the prescribed total marks shall be awarded the letter grade as per the table hereunder

Table	1.	Criter	ria fo	r Award	of	Grades
I aut	1.	CILLEI	IA IU	IAWait	·	Ulaucs

Grade	Percentage Score	Grade points
0	75-100	10
A	60-74	09
В	55-59	08
C	50-54	07
D	45-49	06
Е	40-44	05
F	0-39	00
X	Absent in Examination	

- ii. A student who PASSES in each head of passing shall be granted exemption in that paper. But, if he passes in practical and fails in combined head of ESE+IA of a subject, shall reappear for the ESE of the given subject. However, his/her marks of the IA and P shall be carried over and he/she shall be entitled for grade obtained by him/her on passing of the end semester examination of the given course.
- iii. The marks for the IA or Practical/Project shall be forwarded by Principal/Head of the Institution to the University as per the Schedule.
- iv. If a student is permitted to repeat any semester/course, the new letter grade will replace the old letter grade in the computation of the SGPA and further that every student will have only one grade-sheet for every semester and the last semester grade-sheet to indicate CGPA based on the adapted criteria for the Award of the Degree.
- v. An unsuccessful examinee, at any of the end semester examination shall have the right to carry his/her Internal Assessment marks for the theory or practical course for his/her successive examination in the failed courses.
- vi. The provisions of the examination Ordinance of the university dealing with award of grace marks for passing in a particular head and for improvement of Division (Higher class) shall be applicable for declaration of results of examinations conducted under this direction.
- vii. The rules of the university with respect to revaluation/challenge to valuation shall be applicable with respect to results of the examination conducted as per the direction.
- viii. Calculation of SGPA and CGPA

Semester Grade Point Average (SGPA) - It is indicative of performance of a student in a given semester. The Grade Point Average for a semester (SGPA) is obtained by adding the products of Actual Grade Points and relative weightages for different courses as shown in the course scheme for respective semester and dividing the total by the total credit hours for that semester as illustrated below.

SGPA = [CiGI + CiiGII+...... +CnGn] / (Ci +Cii +.... +Cn)
Where, C - No of Credits of individual course
G-Corresponding grade point obtained in respective course

For example:

An examinee of the first semester examination has obtained

- 10 grade points in the subject code BED1TT01 carrying 4 credits;
- 9 Grade points for the subject code BED1TT02 carrying 8 credits;
- 8 Grade points for the subject code BED1DG01 carrying 4 credits;
- 7 Grade points for the subject code BED1DG02 carrying 4 credits;
- 6 Grade points for the subject code BED1DG03 carrying 4 credits;
- 5 Grade points for the subject code BED1DG04 carrying 2 credits;
- 5 Grade points for the subject code BED1TP01 carrying 12 credits; In this case the SGPA of examinee would be

SGPA =
$$\{(10*4) + (9*8) + (8*4) + (7*4) + (6*4) + (5*2) + (5*12)\}/38 = 7$$

Cumulative Grade Point Average (CGPA) -The Cumulative Grade Point Average (CGPA) is indicative of the overall academic performance of a student in all the courses registered in both the semesters. It is the cumulative total of the products of actual grade point and its weightage up to the second semester divided by total credits of both the semesters.

- ix. Notwithstanding anything to the contrary in this Direction, no person shall be admitted to an examination under this Direction, if he/she has already passed that examination or an equivalent examination of any other Statutory University.
- x. The Classification of Division of Examinees for the award of the Diploma under this Direction shall be on the basis of Cumulative Grade Point Average CGPA, calculated on the basis of the rules contained in this direction in this behalf, as shown in the table below.

Table 2

Sr.No.	CGPA Interval	Interpretation of Class / Division
1	9.01 -10.00	First Class with Distinction
2	7.01 - 9.00	First Class
3	6.01 - 7.00	Higher Second Class
4	5.01 - 6.00	Second Class
5	4.01 - 5.00	Third Class

xi. All the successful examinees in the second semester examination conducted by the university shall be entitled to receive diploma, in the prescribed format, signed by the Vice-Chancellor, on payment of a fee prescribed by the University.

- 12.Conduct of Internal & end semester examinations:-
- (i) There shall be two semester examinations leading to the award of the diploma in Bamboo Entrepreneurship and Design
- (ii) The period of Academic Session shall be such as may be notified by the University through its Academic Calendar.
- (iii) First and Second Semester Examination shall be held by the University in winter & supplementary examination in summer every year. Similarly the regular end semester examination is for second semester shall be held in the summer and supplementary examination for the same shall be held in the winter every year.
- (iv) The Internal Assessment marks shall be based on Student's performance in the Internal Theory examination(s) conducted by the Science and Technology Resource Centre where the programme is going to be offered. The assessment shall be based on student's performance in Assignments/quizzes/GDs/Seminar/Viva voce/Response Classes.
- 13. Where any question regarding interpretation of the provision of this direction arises the same shall be referred to the vice chancellor of the university whose opinion in the matter shall be final and binding on all the concerned people

Place: Gadchiroli Datel 9/10/2022 (Dr. Prashant Bokare) Vice-Chancellor

Semester 1

Course 1: Trade Theory and Practical

Objectives:

- The trainees will be able to Identify, select bamboo hand tools based on operations to be performed.
- The trainees will be able to make slats/strips of different thickness and sizes
- The trainees will be able to treatment, seasoning and opt for appropriate storage of bamboo
- · The trainees will be able to do dyeing using Natural colors
- The trainees will be able to do different mat weaves and create new patterns and motifs in mat weaving
- The trainees will be able to use Molds, Jigs, Fixtures, Templates and Product specific tools
- The trainees will be able to make products with bamboo slats/slivers/full bamboo using weaving, coiling and joining techniques.
- The trainees will be able to work with various bamboo processing machines
- The trainees will be able to perform various bamboo surface Embellishments and decorative techniques
- The trainees will be able to understand the use of standard Carpentry, Metal and Industrial Plastic material types, processes and tools and machines.
- The trainees will be able to integrate other materials like wood, metal with bamboo.
- The trainees will be able to do structural models, simple furniture and construct scaled structural models.
- The trainees will be able to prepare documentation of the process and work in Report format.
- The trainee will be able to exhibit the work using posters with space awareness.
- The trainees will be able to understand the quality requirements of urban and International markets
- The trainees will be able to identify the skills and knowledge of the local craft community and propose interventions in creating viable products for urban and export markets.

Course 2: Employability Skill

Objectives:

The trainees will be able to Read, Write and Speak English

The trainees will be able to use internet for research and academic performance

The trainees will be able to use MS office

The trainees will be able to do PPT presentations

Trainees will know the fundamentals of Businesses in relation to Bamboo.

The trainees will be able to know the essentials of Team & Human Resource Management.

Trainees will know about Bamboo Procurement.

Trainees will have an idea of Accounting & Finance.

Trainees will know about the available Government & Institutional support for the Bamboo Sector.

Trainees will also know the statutory rules of the Sector.

1.			
	Hours of Instruction: 20 Hrs. Marks All		
	Introduction to English Language	English and its use in India, it's uses in	
		Business & Government, Importance of English	
	Grammar	Tense Chart, vowels, sentences, parts of speech	
		verbs, Nouns, Adjectives, Adverb, Preposition,	
		Synonyms & Antonyms.	
	Written/Spoken English	Correct Sentence Formation, Thoughts to	
		Speech, Pronunciation, Greetings, Introduction	
		& Office Hospitality	
2.	Communication skills and Personali		
	Hours of Instruction: 20 Hrs. Marks All		
	Fundamentals of Communications	Introduction to Communication & Role of	
		Effective Communication	
	Types of Communications	Reading, Writing and Oral Communication.	
	Positive Thinking	Crisis in Business, Role of Positive Thinking,	
		Attitude, Motivation, Personal Goal Setting,	
		Ethics & Values.	
	Leadership & Team	Aligned to Team Goals, Understanding Issues in	
		Team, Team Management.	
	Decision making & Problem Solving	Different Business Issues, How to handle Crisis,	
	5 8	How to find Solutions to the Problems,	
		Confidence Building	
	Job Interview FAQs	How to Hunt a Placement, Resume Writing,	
		Networking for a job.	
	Personal Grooming & Professional	Role of Grooming in Workplaces, Dress Code,	
	Etiquettes	Greetings And Common Office Language	
3.	Digital Literacy		
	Hours of Instruction: 10 Hrs. Marks All		
	Computer Basics Hardware	Introduction to Computer Hardware and	
		software	
	Computer Basics Operating Systems	Types of OS - Licensed& Open Sourced, File	
		Structure	
	M.S. Office	Paint, Word, Excel and PowerPoint.	
	Internet	Understanding the Internet, How to Search	
		Google, Popular Social Media Platforms,	
		Understanding Privacy & Cyber Security.	
	E-Mail	How to use Mail.	
	APPS	Introduction to world of apps, types of apps,	
		Android, iOS	
1.	Entrepreneurship & Bamboo Business Management		
	Hours of Instruction: 10 Hrs. Marks Allotted: 05		
	Fundamentals of Entrepreneurship; Traits of an Entrepreneur		
	From Cottage and Village Industries to the world of Startup Entrepreneurship		

	Overview of Bamboo Based Entrepreneurship in India
	Government, Social Entrepreneurship and Bamboo Sector
	Different Bamboo Products and Business Scenario in Bamboo
	Global Scenario & Bamboo Sector: World Bamboo Organization, World Bamboo Congress,
	INBAR UNIDO, UNDP & other global bamboo organizations, India - National Bamboo
	Mission and allied Agencies, State Bamboo Missions and Boards; District level
	development agencies.
5.	HR & Team Management
	Hours of Instruction: 10 Hrs. Marks Allotted: 15
	Scenario of Bamboo Business Organizations in India
	Man-Power Requirement
	Recruitment Techniques
	Bamboo Training Institutes in India
	Team Building and Team Work
	Workplace Administration
	Labour Welfare Legislation
6.	Bamboo Procurement, Production Processes and Logistics
	Hours of Instruction: 10 Hrs. Marks Allotted: 15
	Study of Bamboo Procurement, Production and logistics
/	Basics of Production Planning
	Bamboo Production Tools and Resources
	Transport and Logistics Management
7.	Accounting & Finance
	Hours of Instruction: 10 Hrs. Marks Allotted: 15
	Basics of Accounting in SMEs
	Book Keeping
	Invoicing
	Introduction to Accounting Software
	GST & Other taxes
	Audit and Financial Statement
	Banking Rules, Loans & schemes
	Fixed Cost and Variable Cost, Working Capital management
	The out and variable cost, worning capital management
8.	Government Policies and Statutory Rules
	Hours of Instruction: 10 Hrs. Marks Allotted: 10
	Bamboo procurement, Forest Act and PESA
	Govt policies & Schemes
	Central and State Governments, Missions and Boards: Programmes and Schemes
1	Study of Maharashtra Forest Laws

Course 3: Design

Objectives:

The trainees will be able to apply Design methods like Group Discussion, Brainstorming and Mind Map

The trainees will be able to use visual sensitivity skills during design and fabrication of products. The trainees will be able to design Posters and can print poster in A2 and A3 sizes.

The trainees will be able to apply ergonomics concepts during the design and fabrication of furniture

The trainees will be able to understand the benefits of group working with designers

The trainees will be able to do basic branding and packaging of the products

The trainees will be able to understand the use of sketches, concepts, mockups and prototypes, branding and packaging.

The trainees will be able to understand and use concepts of ergonomics and anthropometry.

The trainees will be able to make portfolio

111	e trai	nees will be able to make portfolio
Sr.	No.	Design
	1	Introduction
	2	Design Thinking tools - Group Discussion, Brainstorming, Mind Map
	3	Creativity Tasks
	4	Geometry 2D
	5	Visual sensitivity
	6	Graphic Design - MS Word, MS Paint, MS PPT, Poster Making A2, A3
	7	Geometry of Solid Shapes
	8	Introduction to Design Process - Basic Ideation, Concepts, Mockups, Prototypes
_	9	Workshop with Designers
_	10	Anthropometry, Ergonomics and Space Design
	11	Graphics Branding and Packaging

Course 4: Engineering Drawing

Objectives:

The trainees will be able to do free hand sketch of objects with ratio and proportion

The trainees will be able to do plan and elevation of the objects

The trainees will be able to do plan and elevations of objects with dimensions

The trainees will be able to understand and read the Engineering drawings

The trainees will be able to understand free hand, isometric and orthographic drawings

The trainees will be able to use simple drawing aids such as Set Squares, Mini Drafter, Compass,

protract	or etc.
Sr. No	Engineering Drawing
1	Introduction - Syllabus, Discussion: Importance and applications in trade
	Free hand sketching of parallel lines, curved lines, triangle, square, rectangle, circle, polygons etc., Solid figures - cube, cone, prism, cylinder, cuboid, etc.
3	Free hand sketching of objects
4	Scale and Proportion.
5	Free hand sketches of objects with scale, proportion and dimensions.
6	Isometric drawing, Free hand isometric drawing using isometric graph paper.
	Freehand sketching of Orthographic projections, 1st angle and 3rd angle projections conventions. Practice on graph paper.
	Standard line Conventions, their meaning, Symbols for simple engineering materials used on drawing as per IS standards.
	Introduction to drawing instruments. Drafter, Drawing board, Scale, Pencils, Drawing sheets, T square, compass, Divider, sets square, protractor, French curves, templates, eraser.
10	Orthographic projections with Dimensions using drawing instruments
11	Orthographic projections to Isometric view
12	Isometric view to Orthographic projections
13	Reading Draft drawing

Course 5: Computer Aided Design Objectives: Introduction to CAD, basic drawing in 2D Introduction to CAD basic drawing in 3D Reading blueprints Printing product drawings

Sr. No.	Basics of Computer Aided Design
1	AUTOCAD 2D-3D
=	Introduction of Shapes
	Introduction to 2d shapes in MS paint
	Introduction to 3d shapes MS paint
	Drawing of 2d shapes in MS paint
	Drawing of 3d shapes in MS paint
	Introduction to AutoCAD: Uses in Mechanical Engineering
2	Installation of AutoCAD
3	Uses of AutoCAD commands
	Perform AutoCAD 2D Fundamentals

Semester 2

Course 1: Trade Theory and Practical -2

Objectives:

The trainees will be able to use design process for design development and fabrication of products The trainees will be able to step by step apply the design process in new product development The trainees will be able to effectively understand and use the various steps and stages of the design process.

The trainees will be able to use the divergent and convergent nature of the design process The trainees will be able to use creative and critical thinking as part of the design process.

The trainee can be able to understand the Industrial working environment and use related industrial processes.

The trainee can be able to get the opportunity to work with industry professionals and organizations, The trainee can be able to work in real life projects and contribute to the team efforts as per internship

The trainee can be able to make professional portfolio by appropriately emphasizing skills, competence and employability

The trainee can be able to make use of images, layout, data and course outcomes for effective portfolio making.

Unit No.	Trade Theory	Trade Practical
1	DESIGN PROCESS BASED PRODUCT DEVELOPMENT (SPECIALIZATION) SPECIALIZATION OPTIONS: Craft based products Furniture and Interior Structure Construction Jewellery Office Accessories Home Accessories Toys and Musical Instruments Lighting PRACTICAL/LAB BOOK SUBMISSIONS AND WORK EVALUATION AND ASSESSMENT - 1	DESIGN BASED APPROACH Topic Selection, Research, Initial Project Brief Market study, Interaction with Consumers and Sellers, Understanding Market requirements, Literature review, Redefined Project Brief, Design Directions, Ideation, Concept Development, Concept Evaluation, Mock-ups, Study Models and Prototypes. Detailing and Manufacturing Final Model Making and Report Submission of Work Completion and submission of lab record books by trainees Submission of Physical artefacts and work done for evaluation and assessment
2	INTERNSHIP The objective of the Internship is: To provide an opportunity for the students to gain Professional experience and practical skills in Entrepreneurship and Development sectors. It will include work related to whole enterprise management starting from commercial, bulk procurement and processing of raw materials to final sales, distribution and consumer experience. Learnings include Product Design & Development, Handling of bulk orders, Operation of machinery, manpower deployment, Use of infrastructure and facilities, Storage and inventory management, Finishing processes, Quality control, Branding and Packaging, Costing and Pricing and Transportation of finished	The trainees will: Select Industry/Agency based on their Area of Interest. Be placed in the selected Industry/Agency for the Internship period. Benefit from exposure to field work and ground realities. Prepare an Internship report which includes the following. Certificates: Student's declaration, Certificate from Industry/Agency/Organization

	products.	Acknowledgement Background Note Introduction
	Internships can be done with Industry, Professional Design firms, Academic Institutions, Commercial Organizations and Government Offices/Agencies and NGOs.	to context General Practices, Operational Process Working Experience Observations Summary/Conclusion. References
	The Internship selection is based on the Area of Interest of the trainee in order to gain advanced knowledge and Specialization.	
	The internship is expected to offer the trainees a professional experience, and contribute to their worldview of the sector.	er en
	Additionally the internship will also help in developing a sectorial network with relevant stakeholders and contribute to their portfolio of experience and work. This will have a direct positive bearing on job placement and their employability	
3	PORTFOLIO MAKING	The trainees will:
	What is a portfolio? Importance of Portfolio making How to make a professional Portfolio Who You Are. What You Do. Compilation of materials that exemplifies your learning and skills training and experience. Examples of Your Work. How to Get in Touch With You.
